

AIDAVA – Hospital Managers Round Table
Cost and affordability of EHDS compliance for hospitals as data holders

Venue: Tallinn, Hyatt Place hotel

Date: 29 April 2026

AGENDA

Time	Topic
9.00-9.10	Welcome, introduction and objective of the workshop.
9.10-9.45	Tour de table - hospitals
THE PROBLEM	
9.45-10.00	Introduction to data sharing / added value of EHDS - opportunities and challenges of hospitals as Data holders <ul style="list-style-type: none"> ● EHDS1 - EEHRxF format and EHR system requirements; ● EHDS2 - management of requests following permit
10.00-10.45	Discussion: Estimate maturity levels of hospitals around managing health data. Examples from hospitals - status of HIMS/EHR systems
10.45-11.45	Discussion: MAJOR requirements (workload/cost) related to <u>Digital</u> aspects in hospital and more specifically related EHDS and how hospital can contribute <ul style="list-style-type: none"> ○ Data quality of hospital data (what do they do on DQ ?) ○ EHDS1 . Readiness to generate EEHRxF (“the format”) ○ EHDS2. Readiness to manage queries for secondary data use
	<i>coffee is available in the seminar room throughout the day</i>
PROPOSED SOLUTION	
11.45-12.45	Summarize discussion from the morning Discussion: direct and indirect benefits of high quality, reusable data (for EHDS, other: personalised care, AI readiness,...)
12.45-13.30	<i>Lunch</i>
13.30-14.00	AIDAVA. AI driven data curation & quality enhancement of patient health records
14.00-14.30	Discussion on comparative cost model (current situation and with AI powered AIDAVA like assistant)
14.30-14.45	Q&A
CHALLENGES & RECOMMENDATIONS	
14.45-15.30	Consensus on most pressing challenges & potential solutions
15.30-16.30	Needed success factors (Call to action white paper)
	<i>coffee is available in the seminar room throughout the day</i>
16.30-17.00	Conclusions - next steps
