

AIDAVA – Hospital Managers Round Table
Cost and affordability of EHDS compliance for hospitals as data holders

Venue: Tallinn, Hyatt Place hotel

Date: 29 April 2026

Time	Topic
9:00-9:10	Welcome, introduction and objective of the workshop.
9:10-9:45	Tour de table - hospitals
THE PROBLEM	
9:45-10:00	Introduction to data sharing / added value of EHDS - opportunities and challenges of hospitals as Data holders <ul style="list-style-type: none">● EHDS1 - EEHRxF format and EHR system requirements;● EHDS2 - management of requests following permit
10:00-10:45	Discussion: Estimate maturity levels of hospitals around managing health data. Examples from hospitals - status of HIMs/EHR systems
10:45-11:00	<i>Coffee break</i>
11:00-12:00	Discussion: Requirements (workload/cost) related to Digital aspects, specifically related EHDS and how hospitals can contribute <ul style="list-style-type: none">● Data quality of hospital data (what do they do on DQ ?)● EHDS1. Readiness to generate EEHRxF (“the format”)● EHDS2. Readiness to manage queries for secondary data use (existing ones and new ones)
PROPOSED SOLUTION	
12:00-12:45	AIDAVA. AI driven data curation & quality enhancement of patient records. How can it support EHDS for Data Holders Discussion on comparative cost model (current situation and with AI powered AIDAVA like assistant)
12:45-13:45	<i>Lunch</i>
CHALLENGES & RECOMMENDATIONS	
13:45-14:45	Discussion: Summarize discussion so far; direct and indirect BENEFIT of high quality, reusable data (for EHDS, other: personalised care, AI readiness,...)
14:45-15:15	Consensus on most pressing challenges & potential solutions
15:15-15:30	<i>Coffee break</i>
15:30-16:30	Needed success factors (Call to action white paper/ 1 page memorandum): what, who, how
16:30-17:00	Conclusions - next steps
